

2K SEAM SEALERS

2K SEAM SEALERS

PLIOGRIP® by Valvoline, a body repair system from Ashland, introduces a line of new highperformance, two-part epoxy seam sealers that may be painted immediately following application. Waiting for your 2K seam sealers to cure before sending to the paint booth is no longer required with Pliogrip by Valvoline's new 2K Seam Sealers. Available in four cure time and body level combinations to match all OEM sealer applications:

- Duplicate all OEM sealer applications
- New robust epoxy formulas
- Flexible
- Brushable
- Excellent workability
- **Paintable immediately following application**
- No odor, non flammable
- Two-year shelf life

- Non-Sag Seam Sealer 6 and High-Body Seam Sealer 12 are designed for standing seams, tape seams and angle seams often found on import vehicles. Choose the work time appropriate for the application.
- High body Seam Sealer 12 may also be used in applications where extra gap filling properties are required
- Controlled-Flow Seam Sealer 6 is the perfect product for applications requiring leveling characteristics while also retaining some body, such as duplication of rounded-edge tape seams found on import vehicles.
- Self-Leveling Seam Sealer 12 is a low-body flowable product for roof ditches and puddle seams.

THE SYSTEM

Our Seam Sealers are part of a family of versatile, fast-acting, smooth-finishing Pliogrip by Valvoline products. Specifically engineered for the body shop, Pliogrip by Valvoline products provide better workability, reduced repair times and superior structural strength. Our unique chemistry provides unrivaled performance in both bonding and repair. When it comes to returning a car to its pre-accident condition, Pliogrip by Valvoline delivers a complete body repair system with a demonstrated track record.

PLIOGRIP by Valvoline. Easier to Use. Faster to Cure. Proven to Perform.
